COOLED TRANSPORTED SEMEN CONTRACT

Mare Name: _____ Reg #: _____
(Please send copy of mare's registration papers, front and back)

I hereby agree to breed above named mare to _____ for the _____ breeding season using cooled transported semen.

The Stallion Fee is \$ _____, which shall be payable upon execution of this contract. The chute fee of \$ _____, payable before semen will be sent, includes two shipments. Additional shipments will be \$100.00 each. Mare owner will be responsible for all shipping costs. Owner must have an account with a courier service prior to shipping time.
Courier Service _____ Account # _____

BREEDING OF THE MARE BY COOLED TRANSPORTED SEMEN: The mare owner is responsible for all facets of breeding the Mare and agrees to comply with all related breed association requirements concerning the use and handling of cooled semen. The Mare Owner agrees to use his/ her best efforts to perform insemination procedure within 24 hours, but not more than 48 hours after collection of semen from the Stallion. The Mare Owner agrees to use all cooled semen provided by this Agreement for Mare named in this Agreement and no other. As the use of cooled semen is an emerging technology, the stallion manager makes no warranty or guaranty, express or implied, with respect to cooled semen, including, without limitation, the warranty of fitness for a particular purpose. The Stallion manager makes no guarantee of delivery within a certain time period, but all measures will be taken to ensure your semen arrives within 48 hours. With cool transported semen, there is no guarantee that the cooled semen will safely reach the insemination point without losing integrity, quality, or characteristics. Therefore it is the Veterinarian's discretion to send counter-to-counter when necessary.

Mare owner is responsible for return of Equitainer within 48 hours by normal (Priority Overnight) on UPS or Federal Express. Equitainer not received within 5 days will be invoiced to you at replacement cost.

A LIVE FOAL GUARANTEE will apply as stated below:
A live foal is described as a new born foal, which stands and nurses without assistance. In the case of a dead foal a written letter from your veterinarian, received within one week of foaling, is required to be eligible for a breeding the following season. Chute Fee will be charged each year.

For mares that conceive from the use of Cooled Transported Semen, a documented ultrasound photo will be required within 45 days from the last date of shipment. If an ultrasound photo is not received, THE REBREED BECOMES NULL AND VOID.

A Breeder's Certificate will be issued by stallion owner for the foal conceived by this process when all fees and other expenses have been paid in full.

Breeding Arrangements

1. Stallions (in most cases) are collected on Monday, Wednesday, Friday, & Saturday. There are few exceptions. It will be the responsibility of the mare owner and his/her veterinarian to confirm our breeding/ shipping days.
2. You must give 48 hour notice to Garner Veterinary Services that you will need semen. To receive a Monday shipment, you must contact our office by noon on the previous Saturday. All shipment requests must be confirmed or cancelled by 8:00A.M. (CST) the day of shipment.
3. In case of subsequent shipments, the shipping container, the signed veterinary certificate and any additional charges must be received before additional shipments will be sent.
4. Every effort will be made to accommodate your mare's breeding time frame. Mares on the premises of Garner Veterinary Services have breeding priority, therefore, we make no guarantee cooled shipped semen will be available for a specific day. It is the mare owner's responsibility to keep in touch with us so that your veterinarian and ours can get your mare in foal on a timely basis.
5. It is the mare owner's responsibility to return a copy of the signed veterinary certificate to Garner Veterinary Services and forward a signed copy of the certificate to the appropriate breed registry.
